

TechCon2015 is Coming!

**October 12-14, 2015
Albuquerque Marriott Uptown**

TechCon returns to Albuquerque, in the Land of Enchantment and home to BASIS' headquarters. New Mexico is at its finest in October as TechCon convenes on the heels of the Albuquerque International Balloon Fiesta, when the weather is stellar and the trees are in full color.

- Three days of "Java Breaks on steroids"
- Two days of face-to-face classroom training
- Network opportunities with colleagues and BASIS personnel and subject matter experts
- Minimal investment for MAXIMUM gain

"The content is always excellent, my head reels with the possibilities! What I find more valuable than anything is getting the face time with the engineers. During lunch, before and after classes. It's personal and that's what makes it great!" — Don Goslin, Heilind Electronics, Inc.

"It was really cool to meet the customers face-to-face that I 'talk' to on the lists and answer all their questions in person. They always give me a lot of great ideas."
— Jeff Ash, BASIS Engineer

*Arrive a few days early to experience the Albuquerque International Balloon Fiesta,
the most photographed event in the world!*
