

BASIS Database Management System

DATA SOURCE

- BLOB's
- Secure AES-128 encryption

DATABASE MANAGEMENT

- Data Dictionary
- Stored Procedures
- Triggers
- Transaction Tracking
- Data Integrity

DATA TABLES

- Data Dictionary
- RDBMS design support
- Legacy data structure support
- Journalled Files
 - Transaction Tracking
 - Commit/Rollback

DATA STORAGE

- Cross platform
- Redundant/SAN support
- Scalable
- Robust

DATA ACCESS

- Extended SQL standard
- Direct result-set-navigation
- ODBC/JDBC

The collage includes a list of 15 companies, a screenshot of a database table with columns ID, Company Name, Logo, Business Plan, and Credit Card #, a credit card, a padlock, a CD-ROM, a woman at a computer, and a man at a computer.
